

Central Minerals

ASX Announcement

15 July 2009

Seed Placement completed in Central Minerals

The Directors of D'Aguilar Gold Limited (ASX Code: DGR) are pleased to advise the successful placing of 2 million shares to sophisticated seed investors in D'Aguilar subsidiary Central Minerals Pty Ltd.

The shares, representing 8% of the issued capital of Central Minerals, were placed at 20 cents each. The \$400,000 raised will be applied to working capital to effect listing the company's equity on a recognised stock exchange.

D'Aguilar also recently settled part consideration for the redemption of the Anduramba Converting Note with Indium Investments Pty Ltd (refer ASX release 9 April) as 3.25 million shares at 20 cents each in Central Minerals. Following the completion of the seed raising, the shareholders of Central Minerals Pty Ltd are:

D'Aguilar Gold Limited	19,750,000	79%
Indium Investments Pty Ltd	3,250,000	13%
Seed Investors	<u>2,000,000</u>	<u>8%</u>
Total	25,000,000	100%

Central Minerals' parent, D'Aguilar Gold holds an intercompany loan to Central of approximately \$1.84 million at 30 June as a result of previous exploration expenses funded by D'Aguilar, including drilling at the Crunchie, Kauffmans, Homestead and Porcupine Pie prospects in central Queensland. It is intended this debt be settled when Central completes an IPO or its equity becoming listed on a recognised stock exchange.

On behalf of the Board
K M Schlobohm
Company Secretary
