iSOFT signs new deal with Dutch care group

Sydney - 14 July 2010 - iSOFT Group Limited (ASX:ISF) today announced a three-year contract with Dutch care group Zorggroep Noorderbreedte (ZNB) to further develop its hospital information system and electronic patient record at the Medisch Centrum Leeuwarden (MCL), a large teaching hospital in the Netherlands.

Under the new deal, iSOFT will continue to support existing systems but also program manage the development of replacement solutions based on the Lorenzo architecture, and other projects to improve the IT available to clinical staff and others within the hospital.

A long-standing customer, ZNB also has the option to select from a range of iSOFT solutions, including resource scheduling applications from UltraGenda, the Belgium-based company acquired by iSOFT in February. Enterprise-wide, multi-resource scheduling will enable ZNB to schedule and manage appointments and resources to improve efficiencies across multiple sites.

iSOFT will work with ZNB and MCL to significantly improve workflows and processes with new technology. The move fits with the group's plans for innovative IT solutions to improve medical decisions and so increase patient safety and patient satisfaction.

The contract is worth €3.45 million over three years.

Zorggroep Noorderbreedte is a foundation formed in January 2008. It owns Medisch Centrum Leeuwarden as well as care centres and home care businesses.

About iSOFT Group

iSOFT Group Limited (ASX: ISF) is the largest health information technology company listed on the Australian Securities Exchange, and among the world's biggest providers of advanced application solutions in modern healthcare economies.

iSOFT works with healthcare professionals to design and build software applications that answer all of the difficult questions posed by today's healthcare delivery challenges. Our solutions act as a catalyst for change, supporting free exchange of critical information across diverse care settings and participating organisations.

Today, more than 13,000 provider organisations in over 40 countries use iSOFT's solutions to manage patient information and drive improvements in their core processes. The group's sustainable development is delivered through careful planning, in-depth analysis of the market, and anticipation of our clients' evolving requirements. Our business is driven by the collective talent, experience and commitment of more than 4,700 specialists in 19 countries worldwide, including more than 2,700 technology and development professionals.

A global network of iSOFT subsidiaries, supported by an extensive partner network, provides substantial experience of national healthcare markets. As a result, we offer our clients comprehensive knowledge of local market requirements in terms of culture, language, working practices, regulation and organizational structure.
