

3rd China Off-Highway Vehicle Summit 2011 - Green & Energy Efficiency Strategy

17-18 January, 2011

Kuntai Royal Hotel, Beijing, China

Organized by Duxes Business Consulting Inc. and endorsed by powerful organizations around the world, 3rd China Off-Highway Vehicle Summit 2011 will take place on 17-18 January, 2011 in Beijing, China.

Contributed from implementation of the drive to revive equipment manufacturing industry, sales revenue of construction machinery is expected to reach 400 billion yuan in 2010. Meanwhile, that of agri-machinery, mining machinery and components is to increase by 15%, 8% and 12-15% respectively. Energy efficiency and emission reduction being focus of off-highway vehicle industry, growing numbers of leading OEMs are developing environment-friendly and highly efficient machinery, which will be the trend.

With the previous two annual events being great successes that gathered 246 high-profile delegates, the 3rd China Off-Highway Vehicle Summit 2011 is to be held with the strong recommendation of previous speakers and attendants.

The summit will provide an effective platform for the participants to learn latest industrial policies and regulations, to explore Chinese and international market, and to strengthen cooperation between OEMs and components providers. Speakers from Chinese central government like NDRC, SAT, MEP, MOA as well as world-leading companies including Caterpillar, Bucyrus, XCMG, CNH etc. will share with the attendees their precious experience and opinions on China Off-Highway Vehicle industry.
