Beijing, China- China Hospital Investment & Management Summit 2011 will be hosted by Duxes Business Consulting Inc. on July 7-8 in Beijing at the Swissôtel Beijing Hong Kong Macau Center. The 2011 Summit will provide a platform to discuss the policies and regulations effecting China's rapidly expanding hospital industry as a result of the recently issued *Views on Further Encouraging and Guiding the Investment of Social Capital Toward Medical Institutions*, focused on healthcare reform and hospital development.

The 2011 Summit will enable participants the opportunity to familiarize themselves with China's newly established policies and regulations, which provide government support for the development of both private and foreign-owned hospitals. The rising demand for industry diversity, quality healthcare services for patients and strengthening financials are fueling the rapid growth of China's hospital market.

Leading government institutions, hospital organizations and international corporations providing insight, experience and policy interpretation include: the Ministry of Health, SAT, IBM, Ping An Insurance, Aier Eye Hospital Group, United Family Healthcare Group, Peking University People's Hospital and the Beijing Hospital of the Ministry of Health among many others. The 2011 Summit is the premiere opportunity to educate, network and strategize one's investments in the seemingly limitless hospital investment and management markets.
