The data have been seasonally adjusted using the Australian Bureau of Statistics SEASABS program and the concurrent approach to seasonal adjustment. Prior to this, seasonal adjustment was carried by the SEATS/TRAMO model developed by the Bank of Spain. The data has also been re-indexed so that 2010 = 100. The above changes have resulted in minor revisions to the data.

The data have been seasonally adjusted using the Australian Bureau of Statistics SEASABS program and the concurrent approach to seasonal adjustment. Prior to this, seasonal adjustment was carried by the SEATS/TRAMO model developed by the Bank of Spain. The data has also been re-indexed so that 2010 = 100. The above changes have resulted in minor revisions to the data.
