Dear Jon

**Request for Voluntary Suspension**

Environmental Clean Technologies Limited (ASX:ECT) requests a voluntary suspension in the trading of its securities immediately following the expiry of its current trading halt today.

In accordance with Listing Rule 17.2, the Company provides the following information:

- The Company has provided frequent updates on the requirement for, and progress of, the submission of the Research Collaboration Agreement (RCA) to the boards of its India project partners, NLC India Limited (NLCIL) and NMDC Limited (NMDC) for its landmark India project.
- On Friday 9 November 2018 a Trading Halt was granted to allow the Company to confirm that:
  - the final report for the external legal review of its RCA had been released, and;
  - the final report and RCA have been accepted for inclusion on the agenda for NLCIL's November board meeting.

The Company is pleased to confirm that:

- the final report for the external legal review has been released to the Company's partners, NLCIL and NMDC, and;
- the final report and RCA have been accepted for inclusion on the agenda for both NLCIL's and NMDC's board meetings this month.
- The voluntary suspension is requested pending the outcome of board meetings to be held by NMDC and NLCIL on 13 and 14 November, respectively.
- At these board meetings, executives of NLCIL and NMDC will be seeking approval of the agreed commercial terms and authority to subsequently sign the RCA at a date to be confirmed.

- Such approvals are the next major milestone towards 'financial close', which once achieved, will formalise the commencement of the Company's India project.
- The outcome of the board meetings will be the subject of an announcement that the Company expects to make on Thursday 15 November.
- The Company requests that the voluntary suspension remains in place until an announcement is made by the Company in relation to the above.
- The Company is not aware of any reason why the voluntary suspension should not be granted.

Yours sincerely,
