 - ✓ Security System

Vertex Minerals Limited (ASX:VTX) (“Vertex” or the “Company”) is pleased to announce an update on the Reward Gold mine start up, with the refurbished Gekko plant arriving this week along with a team of trades people to install and commission the plant. Further the site infrastructure has been redeveloped with a number of improvements to roads and tails line implemented.

Commenting on the progress, Vertex Executive Chairman Roger Jackson said: “We are very pleased with the progress so far with the redevelopment of the Reward Mine and the refurbishment of the Gravity Gold plant, given we have done this with a very small capital budget and a very wet season. I would like to acknowledge our team at Hill End, headed up by our Director Declan Franzmann and Maintenance Manager Jeff Williams who have worked tirelessly on this project to get it to this point. Further I would like to express our gratitude to the efforts made by Gekko on their professionalism in taking a second-hand plant and refurbishing it to an excellent standard within a very short lead time. We are now all-hands-on-deck to get ore into the plant and be producing gold bars in January.”

Hargraves Gold Project (NSW)

- Hargraves Gold project is located approximately 25 km south of the town of Mudgee.
- The goldfield is 4 x 10 km with numerous mineralised structures with little modern exploration.
- An updated mineral resource in accordance with JORC 2012 Code was completed by SRK Consulting (Australasia) Pty Ltd (SRK) – a total of 2.3Mt at 2.38g/t Au for 177koz Au.

Hill End Gold Project (NSW)

- Consists of 10 mining leases and three Exploration Licenses located in the core of the Hill End Trough on the eastern Lachlan Fold Belt.
- Gravity Gold Plant
- PFS completed for the Reward Gold Mine
- 24 km of continuous gold lode with gold recovery rate to gravity at +90%.

Pride of Elvire Gold Project (WA)

- Tenements surround the Mt. Elvire homestead approximately 21 0km north of Southern Cross in Western Australia
- The project has seen historical drilling with encouraging gold results achieved.

Taylor Rock Project (WA)

- Located 80 km WSW of Norseman in the Southern Goldfields region of Western Australia.
- The project has both Gold and Nickel potential, interesting historical intercepts have recorded encouraging mineralisation.
